

EUNOMIA

Basic data for free space grant

School year: 2024/25 **Grant type:** School tuition

Income year: 2023

Max. parent payment 2024/25: kr. 20.400,00

Plan of distribution:

No. of children >>	1 child	2 children	3 or more children	Need*
Means = or under	389.561,00	405.379,00	421.203,00	0,1
Means = or under	373.741,00	389.561,00	405.379,00	0,2
Means = or under	357.923,00	373.741,00	389.561,00	0,3
Means = or under	342.100,00	357.923,00	373.741,00	0,4
Means = or under	326.282,00	342.100,00	357.923,00	0,5
Means = or under	310.463,00	326.282,00	342.100,00	0,6
Means = or under	294.640,00	310.463,00	326.282,00	0,7
Means = or under	278.823,00	294.640,00	310.463,00	0,8
Means = or under	263.002,00	278.823,00	294.640,00	0,9
Means = or under	247.183,00	263.002,00	278.823,00	1,0

*Please note that the applicant's need for a free space is reduced to this year's support rate, since the grant does not cover the full need for free places in the schools.

The school year's subsidy rate is calculated when the school year's total free space requirement has been calculated and set in relation to the school year's free space allowance for school fees.

In recent years, the support rate has been approx. 25%. This meant that the amount paid out was approx. 25% of the need.

For example: According to the above plan of distribution, an applicant's needs are 0.5 and the school fee payment per year is 12.000 kr.

Grant calculation: 12.000 kr. * 0,5 = 6.000 kr.
6.000 kr. * 25% = 1.500 kr.

The applicant's subsidy for the school year amounts to: DKK 1,500
